# WE NEED <sup>Still</sup> YOUR HELP

*Skiers, participants, friends, relatives and parents . . .*

As AWSA and our region continues to grow, we are consistently searching for help in officiating the tournaments that are sponsored by our region and AWSA each weekend. Our region has grown so well with more new lake sites and additional skiers, that it is becoming difficult to spread our officials around in order to make sure that each sanctioned tournament has the required number of officials. We should be commended for the excellent job our region has done; otherwise, we would not have had the growth we've seen without the quality of officials that we have in our region today.

However, the requirements and number of officials to host a tournament have not changed, but the number of tournaments that we now have in our region have grown tremendously. AWSA has seen the need for officials and have tried to help with this growth by offering single event judgeships. While we have had several individuals obtain *single event slalom judgeships* the past couple of years, we are still in need of *trick and jump single event judges*, just to keep up with the demand of tournaments. *Also, we need additional scorers, drivers, technical controllers and safety directors.*

Our sport is almost totally ran on a volunteer basis. No other sport in the United States can make such a fabulous statement! It is a tribute to our character that we are such unselfish people to give of our time in order to participate in a sport that we all love so much. If you are currently involved in some capacity at our tournaments, we offer a sincere **Thank You**. If you have not become involved today, please get involved tomorrow.

**We Need Your Help!**

# LIFE'S TOO SHORT FOR SECOND BEST.

When we started building MasterCrafts® more than a quarter century ago, the only thing we were interested in doing was building the very best ski boat in the world. Because life is just too short to be satisfied with being second best. The results of that commitment have re-written the record books and taken the standards for ski boats to a higher plane.

**MORE WORLD RECORDS.** More current World Records have been set behind MasterCrafts than all other ski boats combined.

**ALL-FIBERGLASS CONSTRUCTION.** MasterCraft introduced all-fiberglass LifeMaster construction for better reliability and durability. It's been proven in thousands of boats for over a decade, while

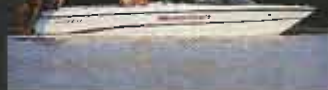

others are just getting started on the all-fiberglass learning curve.

**ELECTRONIC FUEL INJECTION.** MasterCraft was first with electronic fuel injection and first to offer it as standard equipment. Our EFI has been perfected in a \$10-million development program and proven in thousands of successful ski boat installations. Others are still slapping together unproven EFI engines in a frantic effort to catch up.

**MASTERCRAFT IS #1.** More skiers choose MasterCraft than any other ski boat. In fact, MasterCraft outsells the next two ski boats combined.

If you agree life is too short to settle for second best, call 1-800-482-BOAT to test drive a MasterCraft ski boat today.

# ***OUR FASTEST MOVING PRODUCT.***

Inboard power technology is our fastest moving product. That's why we were first to bring you the performance, drivability and fuel economy of EFI inboard power.

Right from the start we didn't spare the horses. We brought you the world's most advanced inboard...the Indmar Tour Edition 5.7 Litre LT-1 EFI.

Our LT-1 is based on the same engine that's standard issue on new Corvettes.

Multi-port injection. Radically new high-efficiency, high-compression aluminum heads with reverse cooling. High-compression pistons. Tuned aluminum intake manifold. Roller valve lifters. And the hottest technology in distributorless ignition...NorthStar.

Controlling it all, a computerized ECU developed specifically for marine use. It's waterproof and it's programmable. So we custom calibrate Indmar engines to match specific hull designs and applications.

Compare the technology of all the inboard products available. There's nothing else like the Tour Edition LT-1. And only Indmar offers it.

At Indmar, inboard power technology is our fastest moving product. We welcome you along for the ride.

# OKLAHOMA WATER SKI FEDERATION

The Oklahoma Water Ski Federation (OWSF) promotes the involvement and growth of competition water skiing and serves as an extension of AWSA at the state level. The Federation maintains state records, oversees tournament scheduling for the state, provides clinics for skiers and officials, and publishes a newsletter. In addition the Federation hosts a State Championship.

This summer OWSF is continuing to sponsor a Novice Tour with a number of sites planning tournaments throughout the state. Skiers will need to participate in as many tournaments as possible to accrue points leading up to the Tour Finals which will be held in conjunction with the State Championships. Those competing in the Tour Finals will receive double points for this tournament. Winners of the Novice Tour will be presented with their awards at the banquet following the State Championships. A copy of the Novice Tour Rules will be available for skiers at all novice tournaments or request a copy by writing to the address below.

As a member of OWSF, you will be informed of all water skiing events in Oklahoma. An OWSF membership is open to all residents of Oklahoma and out of state skiers who ski tournaments in Oklahoma.

## NORTHEAST TEXAS TOURNAMENT ASSOCIATION

The Northeast Texas Tournament Association (NTTA) is sponsoring a tour for the 1995 season. This winter, instead of sitting around trying to think of fancy names, we were hard at work trying to find ways to build on our success. Rules will remain unchanged, because we know that as a skier progresses through NTTA ability levels, they are learning rules that are used in "Class C" tournaments. Skiers will notice changes in the way we operate this year. One of our primary goals this year is to help the novice skier improve his/her technique in accomplishing this goal. Several clinic/tournaments are planned for the summer novice tour; see tournament guide for these dates. Participation points will be used this year to qualify for Finals. Ten (10) points will be given to contestants who register by mail, and five (5) for those who do not. Thirty (30) points will be needed to qualify for Finals. Finals will be much more exciting with a new "Finals Format" that will be much like the Pro-Tour.

In slalom, there are three levels for Women and Men Levels: 2, 3 and 4. For Boys and Girls (under 16 as of Jan. 1, 1995) level 2 and 3 are offered. Boys and Girls are allowed to enter in Women's or Men's divisions in any level.

Level 2: For entry level participants with little or no experience in the slalom course. This level's speeds start at 16 mph and go up to 30 mph. Entrance gates are optional and the skier is allowed a second chance if they miss a gate or fall on the first pass. Second chances can be at the starting speed.

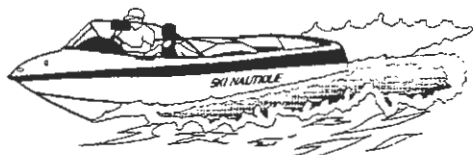

Level 3: For skiers that are more proficient at the slalom course, but cannot complete their maximum speed pass. Maximum passes for Men, Women and Boys is 34 mph; Girls is 32 mph. The skier must complete the gates and is allowed a second chance if they miss a gate on the first pass. No second chance is given if the skier falls. The second chance will be at 2 mph faster than the starting speed.

Level 4: For intermediate skiers. Regular AWSA Open rules apply. Anyone completing a pass at 28 off will be bumped out of competition.

Remember, you need 30 participation points to receive prizes or trophies at Finals. All Contestants that qualify for Finals and mail in an entry will receive a free T-Shirt. For a complete copy of the rules and schedule, send a self addressed stamped envelope to: Brent Coleman, 33339 Highlark, Dallas, Texas 75234.

### AWSEF Trustees Agree to Purchase Property

During the January Board meeting in Orlando, Florida, the Foundation Board of Trustees agreed to purchase property as the pending future site of the new Water Ski Museum/Hall of Fame.

The property, located halfway between Orlando and Tampa on Interstate 4, is highly visible to passing traffic. And, the site is less than a mile from a planned Florida Visitor's Center, the new "Fantasy of Flight" aircraft attraction and a proposed agricultural museum.

The purchase of the property is contingent upon securing zoning permits for the building and the 2300' by 300' lake that would be located behind the museum and office complex. An interstate borrow pit would be expanded to form the lake.

If the property is purchased and lake construction approved it is going to take well over \$1.2 million to make this vision become a reality. ## **1.2 Other Tournaments**

### **1.2.1 Scheduling Tournaments**

Requests for tournament dates will be made before or at the Winter Meeting. The final schedule shall be approved by the Council (1/8/89)

Conflicts should be avoided unless agreed on by both parties. A conflict is defined as two sites within 100 miles of each other having a tournament on the same day. (1/8/89)

Tournaments not scheduled at the Winter meeting are to be approved or disapproved by the EVP upon request by the club. (1/8/89)

Tournament schedules in three areas are to be set by their respective organizations. The Oklahoma State Federation controls all Oklahoma tournaments. The north Texas area is controlled by NTTA (south to and including Waco). All clubs in C.A.S.S. are controlled by C.A.S.S.. (1/6/90)

The Regional Junior Development tournament is to be bid for at the previous SC Regionals in a similar manner to Regionals site bids, and a date should be specified in the bid. (1/16/93)

### **1.2.2 Sanction Approval**

When a tournament sanction is requested, the EVP's sanction approval must go to AWSA headquarters before they will approve the tournament. A copy will also be sent to the Regional treasurer for record keeping to collect head tax. (1/8/89)

The EVP may check listed officials at random to see if they have actually been contacted. Council authorizes the EVP to refuse sanctions to those who list officials without their consent. (1/9/88)

Tournament sanctions are to be refused for the following year to any club that does not present awards to those winners by the Winter meeting. (8/5/88)

For a tournament to be announced in the Regional Guide, it must be AWSA sanctioned. (1/8/89)

Tournament sanctions are to be refused for the following year to any club that does not pay its head tax by the Winter Meeting. (1/6/90)

### **1.2.3 Head Tax**

Head Tax shall be \$1.50 per contestant as listed on the scorebook for AWSA sanctioned tournaments. \$1.00 shall be paid to National Directors, proportional to their attendance at National Meetings. \$.50 shall support Regional expenses. Barefoot, Kneeboard, and Collegiate tournaments are exempt from such Head Tax. (1/6/90)

If the head tax is not paid before the Winter Meeting, the fee will be doubled. (1/6/90)

### **1.2.4 Tournament Operational Guidelines**

A tournament skier is requested, but also obligated, to perform some sort of assistance in producing that tournament. A mandatory assignment by the Chief Judge is proper when necessary. (1/8/89)

A separate person may be, and is recommended to be, assigned to coordinate each of the three events of a local tournament. This person need not be an appointed judge or specifically rated, but should be qualified to oversee his/her event. (1/8/89)

## **1.2.5 Miscellaneous Tournament Guidelines**

No alcoholic beverages shall be consumed by an official or contestant in any tournament until that official's or contestant's participation in that tournament is complete for that day. (1/7/78)

Any dogs at a tournament are to be on a leash at all times. (1/8/89)

If the tournament announcement requests no dogs be allowed, they shall not be allowed. (1/8/89)

## **2.0 MEETINGS AND RECORDS**

### **2.1 Records**

As stated in Article VI of the Bylaws, the EVP has the responsibility to consider approval of all Regional records. Any application for a Regional record should be submitted on the SCR record form and forwarded to the EVP for approval. (1/8/89)

Regional Records may be set only at Record tournaments (Class E, L or R), (8/6/93) Except that records may be set at the Regional Junior Development Tournament if run as a Class C tournament, but with timing per Record tournament requirements. (1/15/94)

Only U.S. citizens, "legal" residents of the SC Region may set regional records. Students are not considered "legal" SC Regional residents. (8/6/93)

Beginning with the Regionals 1993, a new set of "Regional Tournament Records" is to be established and published. Eligibility to set these records shall be the same as for other Regional Records. (8/6/93)

### **2.2. Site of Next Meeting**

The council determines the site of the Mid-Winter meeting at the previous Annual Membership Meeting. (1/7/78)

### **2.3 Minutes of Meetings**

Minutes of each membership and/or Council Meeting shall be mailed to each club council representative within one month following the meeting by the SCR secretary. These minutes will be pending approval at the following meeting. (1/8/89)

## **3.0 MEMBERSHIP AND COUNCIL**

**3.1** Agreement was reached that Council sets Regional policy; the membership only directs the Council, therefore, Council vote is necessary on those issues voted on by the membership to make them official policy. (1/9/88)

**3.2** The bylaws cannot be changed at the Winter meeting, but the Council has authority to make changes to the policies and provide for enforcement of its decisions at these meetings. (1/8/89)

**3.3** As stated in Article IV of the bylaws, each AWSA affiliated club that has at least 8 senior AWSA members as of May 1st may be eligible for a seat on the council. Each club eligible will be notified by June 1 and must submit the councilman's name to the EVP by July 1. Approval of the councilman may be made at the Annual Membership meeting, allowing the club a seat on the council for that year. (1/8/89)

## **4.0 POLICY APPROVAL, CHANGES AND ENFORCEMENT**

**4.1** Regional Council has the authority to set, change and enforce policy at any Regional Council Meeting (provided there is a quorum present) within the bounds of the Regional and National Bylaws.

The new judges qualification system is in effect for 1991, please consult your council representative for details presented at the mid-winter meeting.

## Waterways Education Video and Manual Now Available

The AWSA Waterways Education Video is now available to assist skiers who are facing regulatory problems and need to educate public officials and others about the sport of water skiing.

The 12-minute tape identifies AWSA as the national governing body of the sport and explains competitive skiing, how slalom courses are established, AWSA's strong emphasis on safety, boating and skiing ethics and concern over waterways environmental issues. The video is an excellent tool for educating public officials and others about water skiing as a competitive and recreational activity and as a national and international sport.

AWSA also has available a 128-page Waterways Education Manual, another valuable tool for skiers faced with regulatory problems. It has information on how to deal with public and private agencies, the media and on responding to safety and waterways environmental concerns about allowing the sport.

Copies of the video are available from AWSA for \$20 for AWSA members, \$35 for non-members; the Waterways Manual is \$15 for members, \$20 for non-members.

MARINE POWER

\*Manufacturer's analysis of  
test data

**W**hen it comes to performance that counts, the results\* of *WaterSki Magazine's* recent boat tests were decisive.

Acceleration? Think G-force. In the two tests that rate power out-of-the-hole, a GT-40 beat all comers — even the big block.

When compared to the other engines in our class, PCM-powered boats recorded the fastest times, including the top three and six out of the top eight.

Responsiveness? Think instantaneous. Small block skiboats powered by PCM turned in the top five shortest times in the grueling handling course test. That's the kind of performance you can really feel.

In all the performance tests combined, PCM powered more top five finishers than all the other engine manufacturers combined. That's dominance.

When it comes to skiboat performance, nobody beats Pro Boss® GT-40, the premium inboard by PCM.

A competitor may advance to Open Division at any time providing Open Division performance standards listed under "Performance Standards for Entry into Open Division" have been met twice (two times) per event between the dates of July 25, 1994 and August 6, 1995. If you choose to remain in Open Division, you must do so through the following year's National Championship. If you choose to return to your appropriate age division immediately after the National Championships, you must again re-qualify for Open Division by achieving two (2) new additional performance standards set for that tournament season.
